

The notice about Google Authenticator

Dear customers

Thank you for using BIT Malaysia.

We have added "Google Authenticator(iOS/Android)" provided Google as enhance security measure on 19th September.

This is another function of two step verification.

We have provided "email notification" and "SMS notification" as two-step verification. However, you will be able to select "Google Authenticator" as two-step verification.

We always appreciate your understanding and cooperation.
